

83. Cal Hedigan *CEO, Community Access*

While Cal Hedigan has served as CEO of Community Access since 2019 – overseeing its work providing supportive housing, training, and other services to people living with mental health challenges – she’s been with the nonprofit for much longer, having held leadership roles there since 1999. In addition to its direct services, Community Access has amped up its advocacy efforts to remove police from responding to mental health crisis calls.
